

THUNDER-SCOUT

QUICK START GUIDE

A HERITAGE OF INNOVATION

You put your blood, sweat and tears into everything you do. Elgin products are made with that mantra in mind and more importantly, they are made for you.

We create tools that amplify the output of the everyday craftsman—the unapologetic, under-appreciated working class responsible for laying the brick & mortar of America. We believe there is no audience more inspiring or deserving to serve than this one, and it's our responsibility to enhance their workday with thoughtfully crafted products that combine cutting-edge tech with rugged & familiar designs.

Thank you for using the Elgin Thunder-Scout Headlamp.

INGRESS PROTECTION RATING

Your Elgin Thunder-Scout features an IP66 rated enclosure that protects against dust, sweat and water. The Thunder-Scout is not designed for prolonged submersion in water. In case of submersion in water, quickly remove from water and air dry before use.

USING THE
THUNDER-SCOUT

ACTIVATING THE LED LIGHT

Press the power button once to activate the light. Repeat pressing the power button to cycle through each of the three brightness levels, red mode and to deactivate the headlamp.

HEADBAND ADJUSTMENT

Move the adjustment slider on the headband to customize the fit.

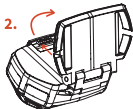

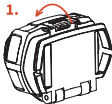

REPLACE BATTERIES

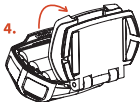

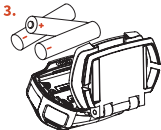

Tilt the headlamp forward on the angle adjustment hinge.

Lift up on the notched tab and open the battery compartment.

Remove old batteries and dispose of them according to local law.

Insert three new batteries and close the battery compartment.

WARNING:

Do not mix rechargeable and non-rechargeable batteries.

Do not mix batteries of different types/brands.

Do not mix old and new batteries.

CARE AND MAINTENANCE

To clean the Thunder-Scout, use a damp cloth with or without mild soap to gently wipe away dust and dirt. Never use harsh or abrasive cloths or cleaners.
